FOR IMMEDIATE RELEASE

CLINLOGIX APPOINTS ROBIN MARC AKERS AS NEW VP OF BUSINESS DEVELOPMENT

SPRING HOUSE, PA – January 8, 2019 – Clinlogix, a global clinical research organization (CRO) with over twenty (20) years of experience supporting emerging life science technologies is pleased to announce the appointment of Robin Marc Akers as the new Vice President of Business Development.

“With over seventeen (17) years of sales management experience, Rob has a track record of successfully building high performance teams and leading global business development to drive business results,” said Carlos Granada, EVP Clinlogix. In his new role, Akers will be instrumental as a part of Clinlogix leadership to further develop the global sales team and to implement corporate strategy and vision.

“On behalf of the executive team and our employees, I want to welcome Rob to Clinlogix!” said JeanMarie Markham CEO. “I am confident that with his style and proven record of unleashing the potential of people and technology he will be a great fit for Clinlogix and a tremendous asset to our Company.”

About Clinlogix

Clinlogix is a Global Clinical Research Organization working to improve human quality of life by supporting and accelerating innovation in the life science industry. Its full suite of clinical research services supports the regulatory and clinical development pathway of medical devices, pharmaceuticals, biologics and diagnostics from proof of concept/discovery, early feasibility/first-in-human, through pivotal and the post-marketing/safety surveillance of client products. The company delivers this global expertise by way of its regional office locations in the US - Spring House, Pennsylvania, Europe - Mainz, Germany, South America - Medellin, Colombia and Asia - Tokyo, Japan.
